HUGE COTTAGE DEVELOPMENT

A cottage development that will have hundreds of cottages for sale will be started early this spring. The subdivider is Mill Valley Lumber Company of Oshawa.

Engineer Pete Valentine approached Lutterworth council last week on the feasibility of building a bridge across the Gull River south of Moore's Falls. Council learned that the bridge could cost up to \$90,000 and that the subdivider would share a portion of the cost.

The company owns land on both sides of the Gull River and on Moore's Lake which was formerly part of Forest Echo Lodge.

A councillor told the Minden Progress that council was behind the project one hundred per cent and are willing to share the cost of building the bridge. Two municipal parks are also planned to be included in the cottage developments.

THE WEATHER

By Phil Graham

First Half of February

Average high 28.4, average low 7.3; average 17.8. Highest temperature 46, Feb. 7; lowest temperature 14 below, Feb. 14.

Snowfall 9½ inches. Rainfall 1.62 inches. Total precipitation 2.57 inches.

Days clear four, days with rain or snow 10. Snow on ground Feb. 15, 12 inches; snow on the ground Feb. 15, 1964, 14 inches.

A FRIEND IN DEED

Like a true friend in time of need, Red Cross responds in emergencies with deeds that help to alleviate the suffering of man. Comforting words in time of stress are always helpful, but what counts more for a stricken individual is definite action; deeds which will help him on his feet again; deeds which will convince him that people care enough about his plight to back up their comforting words with substance.

The Red Cross provides emergency food, shelter and clothing for victims who have suffered loss in a disaster. The sympathetic voice of the Red Cross is heard through hand-made blankets and quilts that will keep the disaster victim warm. It is heard through the fresh new clothing that he will wear for protection, and it is heard through vital food that will give him nourishment. It is a voice that speaks with def-

HIGH SCHOOL PUBLIC SPEAKING CONTEST

The Haliburton Rotary Club has given to the high school a large plaque upon which may be placed the names of the winners of a junior and senior public speaking contest to be held annually in the Haliburton Highlands Secondary School.

On Jan. 20 representatives of Grade 11 and 12 competed in a public speaking contest in a school assembly. Betty Gerow, daughter of Mr. and Mrs. Waulze Gerow of Harcourt, won. Cheryl Brooks, daughter of Mr. and Mrs. Roy Brooks of Minden, was second. On Feb. 10 representatives of Grades 9 and 10 had their contest and Rosemary Elstone, daughter of Mr. and Mrs. Harold Elstone of Soyer's Lake, was the winner. Stuart Brandon, son of Mr. and Mrs. Charles Brandon, Minden, was second.

Misses Gerow and Elstone are to be congratulated on being the first students to have their names placed on the new plaque. It is hoped that this contest will be carried on in the school for many years.

inute deeds, and so is a welcome friend indeed. The Red Cross deserves our full support. Next month is Red Cross Month in Canada.

When the Red Cross canvasser calls on you, give generously.

CUT COPPER WIRE FROM POLE, MEN FINED \$50

Daniel Wayne Faiers, 20, of Buckhorn and Kenneth Stanley Martin, 22, of Peterborough, were each fined \$50 and costs in Lindsay Magistrate's Court Wednesday after pleading guilty to the theft of copper wire in Cardiff Township on Jan. 18.

Provincial Police Const. Prior of Apsley detachment told the court of being called to the vicinity of an abandoned mine in Cardiff Township by Const. Earl Bush of the Minden detachment.

He said the accused men had been observed throwing away a pair of cable cutters and some coils of scrap wire by the constable when they returned to their car parked at the road.

Const. Prior said the accused men admitted cutting the wire from a pole, which was estimated to have a scrap value of \$4.

Magistrate Ian Munro cautioned the pair that anything that is moved even a few inches constitutes theft, and warned them that theft is a serious offence under the code.

On learning that the pair had no previous record, Magistrate Munro levied a fine of \$50 each and costs or 30 days in lieu of payment. The two men were given two weeks to pay by the court.

SNOW DEPTHS

Although the corner, around which spring is, is several weeks away, mentions the Lindsay Department of Lands and Forests, a combination of sun and rain last week effectively reduced the accumulated snow on the ground and on roof tops, the latter being reduced by as much as 3 to 6 inches.

Current depths are as follows: Apsley: Ground 12.9", roof top 5".

Gooderham: Ground 11.7", roof top 7".

Minden: Ground 12.7", roof top 8".

Haliburton: Ground 13.7", roof top 6".

THREE-YEAR "CREEL CENSUS" FOR HALIBURTON HIGHLANDS

Ron Christie, District Biologist for Fish and Wildlife division of the Ontario Department of Lands and Forests, Lindsay, explained to members of the Haliburton Highlands Property Owners Council at the Inn-On-The Park Saturday, the purpose and method of a 3-year "creel census" to be initiated in the spring in the Haliburton Highlands.

Due to the fact that most of these lakes are fed by rock-filtered water they are relatively infertile for the production of fish.

Mr. Christie told the council that the proposed survey will have an important bearing on future fish production in the area.

Mr. Christie suggested that

members of the Haliburton Highlands Property Owners Council, which includes delegates from Cottagers Association who speak for approximately 5500 cottagers in the area, could help considerably by organizing groups of fishing volunteers to work with the department, in compiling of data of marked fish released by the department and caught in the area. He further asked for co-operation in restraining the requests for individual fish surveys might hinder the following out of the organized planning of the project in question.

Mr. R. Christie was accompanied by A. Gostein, Conservation Officer for Haliburton District, and R. Simpson, Fisheries Technician.

The Ontario Safety League repeats the rule for safer driving after dusk, or in fog, rain, or snow... Light Up, Slow Down!

ANNUAL MEETING

SATURDAY, FEBRUARY 20th, 1965

Town Council Chamber, Lindsay

Business Session 10:30 a.m.

Rally and Public Meeting 2:00 p.m.

— SPEAKER —

Erik Nielsen, M.P. (Yukon)

WILLIAM SCOTT,
President

GORDON A. PEPPER
Secretary

Check around. We win comparisons.

Let's start with the price.* Our low price tag on a Volkswagen includes things that are often extra on other cars. Things like windshield washers and adjustable bucket seats and padded sunvisors.

Then check the cost of running. Most of our customers average 38 miles to a gallon. You'll rarely need oil between changes, and you'll never have cooling-system problems. The Volkswagen is air-cooled.

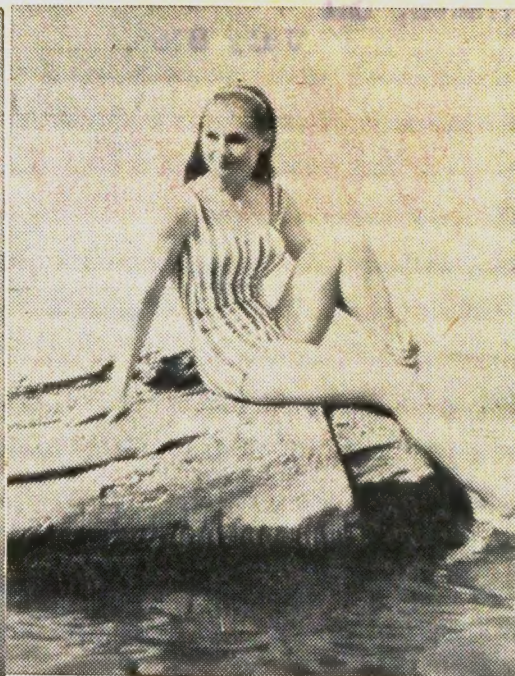

Check around. Then compare our price.

*\$9,000 for a Custom Volkswagen Complete.

EASON MOTORS

NORLAND, ONTARIO

FOR SHARPER PICTURES—
STEADY DOES IT

You're proud of that last roll of film you shot. The kids looked great and so did the pictures you took down by the lake. They were good snapshots; the family really got a kick out of them.

But you noticed that several of them were not as sharp as the others and one or two were blurry. You wonder, "How come, I didn't change a thing?"

Nine times out of ten you can blame that fuzziness on an unsteady camera or "jabbing" the shutter release button.

Camera movement, that motion of the camera during the moment of exposure can spoil an otherwise delightful picture. This is why shutterbugs should make a habit of keeping their camera steady for every picture.

Here is how to avoid amateur photography's most common error.

In general, eye-level still and movie cameras are best steadied if your elbows are held close to the body. Additional bracing is accomplished if the camera is pressed against the cheek bone below the eye looking through the viewfinder.

For over-all steadiness, feet should be comfortably placed about shoulder width apart. As far as holding the camera goes, try for a firm but comfortable are clear of the lens.

grip and be sure your fingers With waist-level-type cameras, the neck strap is a big aid to steadiness. A rock-steady position can be taken by bearing down firmly on the neck strap.

There is one basic rule that always applies, regardless of the type of camera used. "Squeeze", don't punch of jab the shutter release. Failure here cancels out all prior efforts of holding the camera steady. Try practising the squeeze motions with your camera when unloaded.

In support of these steadiness techniques there are available objects such as doorways, balconies, railings, chair backs, table tops, tree trunks and large boulders — all of which provide

a shoulder for the snapshooter to lean upon. Camera steadiness is the most important single improvement you can give your snapshots.

The Ontario Safety League says that in Holland, land of 1,000 canals, an average of 50 vehicles a day plunge into the water, causing the death of nearly 250 people annually.

News and Views

from the Minister's Study

In a conversation with a farmer from Victoria County this week, the gentleman observed, "There has been a greater change in farming during the last 10 years than in the 50 years before."

The same observation applies equally to a summer resort area such as ours. When we think about the church today it must be of "The church in a changing world." As a minister, one grows increasingly aware with each passing year of preaching and ministering to two separate congregations. During late autumn, winter and early spring you are minister to people whose weaknesses and strengths, hopes and disappointments, joys and sorrows, you know well. Then through late spring to early fall you preach to a vast majority of your congregation who have come from large and small churches in many areas and each with needs you do not know. It is a big but challenging task to meet the needs of both summer and winter congregations. It is an equally great challenge for local congregations to provide a satisfying spiritual holiday for the multitudes of people who come into the highlands each season. I see many encouraging signs that our boards are taking this matter seriously and achieving a fair measure of success, but now is the time when plans have to be made to be effective in the summer ahead.

In fitting our own holidays into this type of ministry, we are arranging to take three Sundays in March this year and the fourth at a later date in the fall. The first Sunday of March this year there will be an outside speaker in charge of the services of the pastoral charge. On the second and third Sundays the United Church Women and the A.O.T.S. Men's Club will assume responsibility for the three services.

Unit "C" of the Minden United Church Women's organization, composed very largely of mothers, will hold a Bazaar-Sale in the Church Hall on Saturday, February 27th at 1 p.m. The proceeds from this sale will be used for work in the Sunday school. At the same time and place the members of the Hi-C Group will be holding a sale of home-baking.

Have you ever noticed the amount of effort a young fellow

will put into fixing up an old car? He will often spend weeks cleaning, polishing and repainting his ancient auto, for which he will probably receive a considerable amount of praise.

But, in many cases the car may look better than it is; the fellow has not had time to do anything about the motor or the motor or the brakes. Outward appearance is important but not nearly as basic as POWER and CONTROL. We can be regarded as good citizens when we ourselves know we lack spiritual power and self-control. Jesus had some rather rough things to say about people who were outwardly fine and inwardly corrupt. (St. Matthew 23:27).

Lent will begin in another week and a half. Is there any better time for an "overhaul"? Lent is the season in which the church provides for stocktaking, repair work and renovations. God Himself will help us do this job. How about our "tuning"? Spasmodic sparking slows us down... Occasional prayer when the mood strikes you, or when it's convenient, is of little value. What about the battery? Are you making sure that it is recharging every day, every week? What about your fuel system (Worship)? Have you blocked the supply line? What about your steering? Brakes? (Discipline). As for the cooling system, love is the best antifreeze. Don't forget to consult the official handbook and manufacturer's instruction — the Bible.

—David W. Staples

CHAMPIONSHIP OF BOWLING FOR THE CARLING CUP

Mel Akers of Peterboro takes on David Caister of Cobocook this Saturday, February 20th, in the third round of the Championship of Bowling for the Carling Cup, on CHEX television. Mr. Caister, who has been bowling for only three years, moves into his first major competition, after an upset of top bowlers in his area. His average in the Cobocook and Feneon Falls Major leagues, stands at 130, but his qualifying round total was an impressive 232 for three games.

ROTARY ROUND-UP

The meeting of Minden Rotary Club on Feb. 8 had 18 members present, also three visitors. President Harry Cowen in charge.

The guest speaker was our local registrar, Mr. Gerald Finlay, who was introduced by Rotarian Gordon McKay. Mr. Finlay spoke on early history of Haliburton County, his information being mainly obtained from a book entitled "Muskoka and Haliburton."

The book is a collection of documents from 1615 to 1875 by Florence B. Murray. It contains many of the records and descriptions from the files of the early surveyors.

Mr. Finlay, with his knowledge of the county as registrar and information from the said book was able to give us a very interesting talk for which he was thanked by Rotarian Bob Corrie.

The Feb. 15 meeting had 17 members and seven visitors from the Haliburton club present and again President Harry Cowen in charge.

The guest speaker was William Payne, operator of the switching station at Allsaw. He spoke to us on the operation of minor hockey in Minden and concluded his remarks by presenting a film on the hockey career of Gordie Howe and how he has helped promote minor hockey.

Bill invited us to attend a hockey match that evening between Minden and West Guilford at which he was to act as referee. He was thanked by Rotarian Tom Newell for his remarks and the presentation of the film.

Minden Rotary Club has been designated a 300 per cent Rotary Foundation Club for its contribution of a minimum of \$30 per member to the Rotary Foundation. This fund provides fellowship awards to outstanding college graduates for one year of study and travel in countries other than their own.

RED CROSS
IS ALWAYS THERE
WITH YOUR HELP

McPHAIL - CRAWFORD

A small wedding was solemnized on Saturday evening, Jan. 30, 1965 when Carolyn, youngest daughter of Mrs. Sam Crawford was united in marriage with Everett, son of Mr. and Mrs. Charles McPhail with Rev. Charles Dymond officiating.

The bride, given in marriage by her brother Russell, was charming in a turquoise lace dress over tulle with white accessories. Her only attendant, Mrs. Aileen Crawford wore a chocolate brown lace over tulle dress. Assisting the groom was his brother Willard McPhail.

A reception was held at the bride's home where her mother received wearing a pale blue lace over tulle gown. Those attending the wedding were immediate relatives and friends. The bride and groom went on a short honeymoon to Welland and will be residing in Minden for a while.

MINDEN - WEST GUILFORD TIE

In a well played 60 minutes of hockey, the midgets of Minden and West Guilford played to a five-all tie.

This was a four point game and both teams were out for that all important win. Minden went ahead in the first period 3 to 1, only to see West Guilford tie it up in the second period 4 to 4. In the third period, West Guilford went ahead 5 to 4 and later on Minden tied it for a final score of 5-5.

The game was handled by Aubrey Gostlin from Haliburton and Bill Payne from Minden. There were few penalties in the game indicating that better hockey can be played on the ice rather than in the penalty box.

KINSMEN NEWS

Minden Kinsmen bingo ended last week when three women shared the big prize with each lucky winner receiving \$205 each.

The winners were Hilda Harrison of Minden, Edith Russell of Hall's Lake and Mrs. Billings of Gooderham. The prize was won on the last number of the jackpot.

There were 153 people in attendance. The Kinsmen Bingo will be sidelined for a short period of time and are inviting everyone who shared in bingo to write in suggestions for the next Kinsmen Bingo.

Write to Ron Pennell in Minden if you have any ideas. The Minden Kinsmen are starting a twice monthly ticket draw. Should you be asked to support the draw, remember, all proceeds go to the children's playground.

SATURDAY, FEBRUARY 20, 1965

The condition of the Bobcaygeon Road from the Sunny Brook Bridge to the Minden Public School is deplorable. The heavy snowfall that blanketed the road and now the unseasonable rains and the mild weather has caused the road, sidewalk and the ditches to flood.

For at least a week the children who must walk to school have had to walk on the road to make their way to school. This is extremely dangerous both for children and motorists alike.

The township's road men have worked diligently to rectify the situation, however, it has been quite a difficult chore since most of the drains and culverts are frozen. Perhaps when the road construction program for the municipality is decided on for this year council will vote to improve this small stretch of ditch. A few culverts under the road and sewers placed the length of the ditch could improve the situation.

No doubt council and the road department will place this item on top of the list for ditch improvement.

LOCHLIN MAN INJURED AS TRUCK ROLLS

John Hill, 43, of Lochlin sustained undetermined back injuries when his half-ton truck rolled over into a small ravine near Lochlin at 10 a.m. Friday.

Minden OPP said the truck was trying to climb a steep hill on the ice-covered road when the truck lost traction and began to slide backward down the hill. Police said the truck skidded sideways and rolled over landing on its wheels in the ravine.

Damage to the truck was es-

timated at \$175.

Icy road conditions caused sander to go into a ditch on Hwy. 121 and roll over onto its side at 7:30 a.m. Friday, Feb. 12. Minden OPP said the De-

partment of Highways vehicle, driven by Clarence Saunders, 45, of Minden, sustained about \$100 damage when it rolled north of Kinmount.

Correspondence for the Minden Progress should

SCOUTING CORNER

With Bill Payne

Boy Scout Week will be observed from Feb. 21st to Feb. 27. Minden Scout Group will be celebratnig by having a Father and Son banquet on Friday, Feb. 26th at 6:30 p.m. at the United Church and a church parade on Sunday the 28th, also at the United Church in Minden.

Displays of what the boys have done, plus demonstrations of their work will be featured at the banquet.

This is one of the few times that the fathers, leaders, group committee and the Cubs and Scouts get together for an evening of fun and fellowship.

CUBBING

The boys are working hard in their star work and are looking forward to the annual camp which will be held in June.

With the excellent help of Spike Moxam and Bob McBrien as well as the cub instructors from scouts, the programs are moving along quite well.

Although there will not be an actual Cub program on the 22nd, the cubs will still attend and will be treated to an excellent film on "How to Score Goals" by Gordie Howe. The parents of the cubs, along with their families are invited to attend to see this film, also the presentation of trophies to the squirts in the minor hockey association.

SCOUTING

The Scouts were on a hike last week and had excellent weather for their adventure.

In speaking with some of the cubs who have gone up to the scouts, they said it was a lot of fun to be in scouts and they enjoyed the outings which Don Berry, the Scoutmaster has so often.

In speaking with Don about how the cubs were doing, he explained that they were coming along fairly quickly in their tenderfoot work and he was very pleased with their results and enthusiasm.

There are about 20 boys attending scouts on a regular basis with more than this on the roster.

An invitation is always open to the boys of eight to eighteen to join with us in having the fun we do.

SPORTS

WITH BOB BEENEY

The new council has divided the Minden Arena Board into two separate committees. They are the Arena Board which is to take care of the operation of the Minden Community Centre, and the Recreation Committee whose job is to provide recreation for the citizens of the community and their children.

Council's decision to divide the board into two separate groups is perhaps the biggest break that the recreation end of the community has ever received. New members have been appointed to both committees.

Chairman of the arena board is Reg. Booth while Bill Payne will chair the recreation committee. The arena board will have a difficult chore ahead of them since the arena is in definite need of repair and the budget must be kept under control. Naturally the more events that can be booked into the arena the more profit will be realized at the year's end. This definitely meshes into the function of the recreation committee. There are so many more events that can be scheduled into the arena both winter and summer.

It has been proven during the Minden Winter Carnival the broomball is a popular sport that can be started in a regular league type of operation. Four teams or more could be started in a league that would bring extra revenue to the arena yet could be booked at times when the arena is hardly ever used.

The other day Bob Harvey Sr. mentioned an idea that I think deserves a lot of merit. He suggested that in the summer a temporary floor could be laid on the ice surface portion of the arena at a nominal cost and dances on a large scale could be held regularly. To go a little further on the idea: why not use the platform for floor hockey. A summer league of floor hockey could be arranged. This is a game that would likely draw a lot of enthusiasts. Another sport that has suffered over the last few years is figure skating.

At one time figure skating was a real big event in Minden but has now dwindled to an event that has little interest to most people. I personally would

like to see a figure skating club operating in a successful manner so that each winter an ice show could be put on that would fill the arena with spectators.

Remember the recreation committee must provide other recreation for the community as well as what takes place in the arena. Some of these could include track and field, softball, horseshoe contests and volleyball. There are so many other summer activities that the recreation committee can push to interest the community's citizens. It is their obligation to do so.

100 PER CENT PASS E.M.O. COURSE

All Minden Volunteer Firemen passed a St. John's Ambulance course sponsored by the Emergency Measures Organization and received diplomas on Monday night, Feb. 8th.

A few other people from the Carnarvon - Minden area also took the exam and passed.

Victoria - Haliburton Emergency Measures Organization coordinator Jim Hall handed out the diplomas with assistance from Anson, Hinden and Minden Deputy-Reeve Mark Vasey. Mr. Vasey is a representative of Haliburton County to E.M.O.

Mr. Hall spoke briefly to the men and outlined a portion of the responsibilities of the Emergency Measures Organization.

On Feb. 28 a film will be shown to the men.

Deputy - Reeve Vasey spoke remarking: "It is good to see the interest you have shown in the course and the results are wonderful."

Reeve Charles Brandon said, "The fire department has improved considerably over the last year and I can speak for all of the council when I say congratulations on passing the course."

Fire Chief Eldon Deacon thanked Mrs. Johnson who helped to instruct and Harry Hammond of the St. John's Ambulance. Mr. Hammond was unable to attend because of other commitments. A continuation of the course is expected later in the year.

CELEBRATES 85th BIRTHDAY

A quite family birthday dinner was held Feb. 4 on the occasion of the 85th birthday of Mrs. William Prentice Sr.

All members of her family were with her with the exception of two grandsons, Tom Prentice and Bob Smith. Tom was too far away to attend and Bob and Joy had just become parents of a son, the sixth great grandchild for Mrs. Prentice.

During the afternoon and evening close friends and neighbors called to chat awhile.

The thanks of the family goes out to those, who with their visits, flowers, candy and cards have helped to leave many happy thoughts with Mrs. Prentice through the quiet times she has at this time of life.

ELDER CITIZEN PASSES

Mary Ellen Trumbull passed away at Ross Memorial Hospital Jan. 19, 1965 in her 81st year. She was a daughter of the late Mr. and Mrs. James Davis, born at Port Hope and the family came to live at Blairhampton until her marriage to Amos Trumbull. He predeceased her in 1940.

The late Mrs. Trumbull leaves to mourn her loss six daughters: Mrs. L. Hamilton (Beatrice), Mrs. John Cowan (Marjorie), Mrs. R. J. Hughes (Bertha), Mrs. Arnold Gartshore (Jean), Mrs. Alex Godin (Bessie), Mrs. Wm. Prentice (Leonore), all of Minden and two sons, Clifford of Sault Ste. Marie and Archie at home; six other children predeceased her.

Three sisters and three brothers also survive.

Friends and relatives called to pay their respects at the Welch Funeral Home and service conducted by Rev. D. Staples was from Minden United Church with interment in Minden Cemetery.

Pallbearers were grandsons Royce, Jim and Bill Cowan, Bradley Hamilton, Bobby Trumbull and Bev Gartshore.

Floral tributes were numerous and beautiful showing the high esteem in which this fine lady was held in the community.

MINOR HOCKEY

With Bill Payne

Several good things have been happening in minor hockey lately, we had the pleasure of Mr. Albert Watkins, O.M.H.A. president from Peterborough, visit with us during a midget game between West Guilford and Minden, this week.

The Minden Rotary Club have offered their assistance again this year to sponsor minor hockey and have been very generous to the youngsters in the community.

We have been fortunate in acquiring the film "How to Score Goals" by Gordie Howe in Minden. This film will be shown on Mon., Feb. 22 at 7:00 p.m. in the auditorium at the arena.

The film shows how to skate better, how to deke the goaler, and many more tips on improving your play making.

An invitation is extended to everyone to bring their children, young and old, boys or girls, to the arena on Monday night to see this film.

Also Monday night, the winners of the squirt series will be presented with annual awards given each year.

The bantams and midgets have wound up their regular games in the Haliburton County League. The peewees will be playing their last regular game about the time you are reading this column.

Although a final decision has not been made, it looks like the Glen Dart Series may be played in Minden on Friday, Feb. 26. In any event, keep this date open and come to see your boys participate in this event.

The all-star bantam and midget playoff games will be starting shortly and your support at the arena will help the boys morally and the hockey association financially. We need a great deal of support to help us pay the bills that occur on behalf of your youngsters.

The Haliburton Highlanders, which have a number of juveniles from Minden playing, are going great guns this season. They are in the second series in the playoffs having won their series with Bobcaygeon and the first game with Newcastle. They go against Newcastle again tonight in Newcastle.

WARP and WOOF

February has run the gamut from A—al lwet to Z—zounds! it's cold! Two ice storms in one week left everything covered and slippery as an eel. Cars proceeded sideways — mostly to the ditch — and people proceeded gingerly, with two choices, either fall on back or fall on front. Telephone wires enlarged to rope size, limbs of trees bent at the ground with many of them broken.

The neighbor's pride — a tall willowy willow, with a tuft on top like a lion's tail, was bent right to the ground and firmly fastened in the ice . . . the tuft did get a bit bedraggled!

Our flag pole was bent double, and our Ensign was hanging its head, and just when the new flag was about to be raised too! Yes, February, with rain, fog, ice and snow presented a mixed bag of weather to be sure.

Eavesdropping, we heard — "Her husband was working on the night shift so she didn't expect him home until morning so she locked the door, shot the bolt, and went to bed. Husband came home unexpectedly late that night . . . couldn't get in on account of the bolt. Tried to rouse sleeping wife, to no avail. Since they live in an apartment didn't want to make too loud a noise. In the morning when she got up, opened door, there was husband sound asleep on floor, overcoat under his head, and feet hanging down the stairs. Next night he went to work . . . took bolt of door, put it in his pocket and took it with him." His key should let him in next time we hope.

Now it can be told . . . the cost of "true love" in the song "The Twelve Days of Christmas" at today's prices.
One 6-foot pear tree—\$4.51.
One partridge, dead or alive — \$3.01.

One pair turtle doves—\$15.04.
Three French hens—\$13.54.
Four calling birds (say goldfinches)—\$37.91.
Five gold rings (22 carat)—\$790.
Six laying geese—\$48.14.
Eight milkmaids, at a weekly minimum of \$22.79 stipulated by the Agricultural Wages Board for a milkmaid over 20 — about \$32.50 (for one day).

Nine players—\$568.72 for one evening's engagement, including costumes and re-

hearsals (according to a theatrical agency).

Ten barking dogs (leaping lords unavailable), (pedigree animals alternative suggestion) \$1,098.

Twelve drummers (musician's union standard rate) — \$144.44.

Total for this bucolic little Christmas extravaganza at current prices — \$3,305.01.

Thoughts for Today

Real difficulties can be overcome; it is only the imaginary ones that are unconquerable.

There are only as many days in the year as you may use.

One of the greatest labour saving devices of today is tomorrow.

The following is dedicated to English teachers and the poor, baffled devils of foreigners who are trying to learn the crazy stuff.

"The wind was rought and cold and blough;

She kept her hands within her mough.

It chilled her through.

Her nose grew blough

And still the squall the faster flough.

And yet, although

The weather was cruel fough.

It made her cough

(Pray do not scough);

She coughed until her head blew ough.

—From S & S, B.S.

At last we've discovered where our water supply is going, lakes receding wells drying up. It's the snow making machines.

One system uses 180 gallons a minute or almost 260,000 gallons per day! How about that?

Traffic Problems:

Hadrian, who was Roman emperor from 117 to 138 boasted:

"I reduced the insolent crowd of carriages which cumber our streets, for this luxury of speed destroys its own aim; a pedestrian makes more headway than a hundred conveyances jammed end to end along the twists and turns of the Sacred Way."

—Ontario Safety League

With the last fortress of the Red Ensign crumbling away and the new flag being raised, pretty soon there will be nothing left but the cheery little cut found flying in our column last week. How about putting it at the top? No potato sack design will ever be seen flying from our flagpole, and you can lay to that me hearties!

"Canadians remind me of Vichysoisse — it's cold, half French and difficult to stir." — S. Keate, publisher of The Vancouver Sun.

Kolblenz was vrey hard hit during the war and is still not completely re-built. Though I try not to think about it, I can't help wondering what part some of the older men I've met took in the war. It's hard to imagine that some of them likely followed Hitler like a god. Also, when you see so many handsome young men here, you can't help but think of the rows and rows of similar strong, young, handsome men that were mowed down during the war.

Don't think I dont remember our own men who died here, but now actually being here, your heart aches for this country's lost youth also.

My clothes will certainly be in bad shape when I get back. My all weather coat looks as if I slept in it and the beige side is now on the inside for obvious reasons.

Calluses have already formed on my fingers from my suitcase. I looked at suitcase wheels yesterday but when I saw the price I decided I was still as hardy as an ox.

We are sitting here now reading from our 'Bible' — "Europe on \$5 a Day". It says that in Florence, you never pay the asked for price. You are supposed to bargain and bicker until you knock 30 per cent off the price.

So you just sit back and imagine me in the Florence straw market, bargaining in Italian, with my passport and money hidden in my girdle, being picked on the passport by an ardent gigolo with the temperature 114 in the shade.

Warp and Woof Joke Pot

At the moccasin dance at Minden one woman remarked to another: "Heaven knows, I'm thin, Annie, and you're pretty thin, too. But that one — why she's thinner than both of us put together."

A woman flees from temptation, but a man just crows away from it in the cheerful hope it may overtake him.

There's no such thing as dangerous women; there are only susceptible men.

To be happy with a man you must understand him a lot and love him a little. To be happy with a woman you must love her a lot and not try to understand her at all.

When you flee from temptation, be sure you don't leave a forwarding address.

The best safety belt in the world is the one you don't take for the road.

LINDSAY CLEANERS INSTALL NEW SANITONE SYNERGISTO PROCESS

Hailed as a major advance in
drycleaning technology

An advanced drycleaning technique by Sanitone, called the Synergisto Process, which employs an electronic programmer to provide the most accurate selectivity of cleaning power, is now in operation at Lindsay Cleaners.

The Synergisto Process, as explained by Lindsay Cleaners employs a special agent, or Synergizer which, when added to the regular cleaning agents, activates them to a complete soil removing action, resulting in brighter colors and imparting a "spring-like" freshness to garments.

The Synergisto Programmer, an electronic "magic brain" accurately and automatically adds the exact degree of cleaning action and the precise kind of care required for every garment — from heaviest woollens to light, fragile silks and knits.

The process was developed by the research division of national Sanitone Service. Lindsay Cleaners enthusiastically notes the Synergisto Process is performing excellently and that customers are gratified with the results.

BETWEEN THE HAYSTACKS

It's interesting to note that 4-H Clubs increased their membership by 2,077 to bring the total membership of 4-H Clubs to 72,782. Total clubs now number 5,759. Girls exceeded boys in membership by 7,264 and were higher in project enrollment by 13,125.

The Urgent Question

To co-operate, or not co-operate, That is the question:

Whether 'tis better to suffer the Outrages of economic distress, Singly and alone

Or by bonding together with common purpose,

Unite in strength

And, so achieve optimum security

Desired by all —

To co-operate, to unite, perchance to meet

My needs:

Aye, CO-OP — 'tis the answer. With humbler apologies to W.S.

—Co-Op Comment

The number of hogs on farms in Canada totalled 5,575 head a tDec. 1st, 1964. This is about 4 per cent higher than one year ago. The increase in the west amounted to 14 per cent compared to a drop of 2 per cent

in the east. Both eastern and western Canada as a whole are expected to produce a spring pig crop very close to that of last year. This suggests that the increase phase of the hog production cycle is coming to a halt.

Call it *wurst* (German), *kielbasa*, (Polish), *kobacia* (Croatian), *salchicha* (Spanish), *korb* (Swedish), *loukaniko* (Greek), *natnik* (Jewish), *salcicca* (Italian), *is pin* (Irish) *saucisse* (French) — it means *Sausage*. An excellent source of B vitamins and minerals.

Canadian potato growers seeded 280,700 acres in 1964, the lowest on record. But a better than average yield of 165.9 cwt. per acre resulted in a crop of 46.6 million cwt., of 2 per cent above that of 1963. In planning their 1965 production, Canadian potato growers should avoid over planting, bearing in mind that current prices are the result of short supply in the United States.

New early apple varieties are Quinte, Ranger and Caravel developed at the Central Experimental Farm, Ottawa. They are superior to the varieties now grown in Eastern Canada for the early fresh fruit market.

Hear about the farmer who fed his hens on sawdust? Out of a setting of 12 eggs, eight were woodpeckers and the other two had wooden feet!

Did the ground hog see or not see his shadow . . . the state of the weather has us confused.

Drivers, never try to pass another car if there is the slightest doubt in your mind that you have room enough. The Ontario Safety League points out that if you are doing 60 m.p.h. and passing a car that is doing 45 m.p.h., it is like passing 40 cars parked bumper to bumper.

POSSIBLE PLANNING BOARD FOR MINDEN

At a council meeting last week Minden council asked Reeve Charles Brandon to make an appointment with the Department of Planning and Development to investigate the possibility of setting up a township planning board for the municipalities of Anson, Hindon and Minden.

At the meeting clerk Gordon Bibby was instructed to inform Leslie Prentice that when the road through his subdivision is brought up to the standards required by the Department of Highways and an easement for a turning area beyond the subdivision is provided then the municipality will accept and maintain the roads. Council also decided to continue the dental service program in 1965 and will provide funds up to \$1,000 for the service.

Council is in favor of entering into a fire agreement with Snowdon Township. They are also in favor of meeting with Snowdon council to draft boundaries to be covered by an agreement. Clerk Gordon Bibby was asked to write a letter to Fire Chief Eldon Deacon complimenting him and his men for the great improvement in the fire department during 1964.

Council has also agreed to purchase \$1,100 worth of equipment for the department.

A leak in the new Minden Municipal Building has caused some concern to council and they decided to inform Gorsline Construction Company that they feel that it is due to faulty construction.

Another job was handed to Reeve Charles Brandon when he was appointed to the Ontario Centennial Planning Board as Centennial Committee Chairman for Anson, Hindon and Minden.

"FALL OUT" FILM

Victoria County E.M.O. coordinator James Hall reports that the graduates of the first aid course held recently at Minden will be shown a film on "Fall Out" next Monday evening at Minden.

Friday and Saturday, February 20th and 21st are the dates for the holding of E.M.O. federal exercises at Peterborough under the War Supplies Agency. Mr. Hall will take part in the exercises.
